

PREPARATION

Equipment suitable for terrain.

Where is it? How does it work?

Discuss forced landings with crew & passengers.

Tailor survival equipment to where you are going.

Wear clothing and footwear suitable for area you are flying over. Flightsuits & cotton clothing offer protection against fire. Preferably no high heels and skirts.

Wear lifejackets & immersion suits and know where beacons, raft torch, first aid kit and grab bag are.

Brief passengers about what you expect them to do. Prepare doors, slightly ajar? Getting out, take survival equipment with you. Appoint someone to raft, beacon etc.
